v

Gregory Arthur Walker II,
Defendant

Case No: 13-CR-0018-CVE

July of 2019 was not the last annual risk assessment. The last one was St. Patrick's Day, March of 2020. By Jones Smithfield Act they had 4 months to file it. Clare and I am sorry but they did not. You cannot keep coming up for their lackluster activities and so since you didn't receive it in 14 days anyways or if you did they probably lied & said it was July it still needed to be turned in by October to November. Now if you are going to deny what that warrants, which is case dismissed, then you are a (imbecile) & a judge. I am sorry but if in 14 days I don't receive a release order I am going to an appeals judge & you & they are going to jail for medical malpractice & breaking the law.
